Re: Concrete Plant Approval
Facility No.C0314 and C0479

Gentleman:

On 02-16-2012 personnel from the Regional Materials office staff inspected your concrete production facilities located at 47-17 27TH STREET, LONG ISLAND CITY, N.Y. 11101

As a result of this inspection, it has been determined that the physical plant features, the automation and recordation equipment at this facility are in conformance with the requirements outlined in Section 501 of the New York State Department of Transportation Standard Specifications of May 1, 2008, as addended.

Approval is hereby given to supply concrete from this facility to department projects until 02-16-2013.

This approval is contingent on your ability to continue to meet all N.Y.S. D.O.T. specifications and all health and safety requirements. Periodic inspections, sampling and testing will be made to ensure continued compliance.

Any questions, call me at 718-479-2622

Yours truly,

Paul Anderle
Regional Materials Engineer - Region 11
